

Regional Meeting: A people's Process for Post-Tsunami Rebuilding 24th to 26th April 2005 – Srilanka

It is with pleasure we make available to you this special report on Post-Tsunami issues focusing on serious structural issues pertaining to people's efforts at rebuilding their lives and their livelihoods. This electronic document brings together the background note, presentations, statement and other related documents from the Regional Meeting: A People's Process for Post-Tsunami Rebuilding, held in Colombo, Sri Lanka from 24th to 26th April 2005. We have unfortunately been unable to include a report of the stimulating discussions at the meeting itself, mainly because the computer on which the discussions had been minuted was lost shortly after the meeting. Given, however, the continuing relevance of the statement from the workshop and the presentations made, we felt it worthwhile to bring out the rest of the report in electronic form, in time for the first anniversary of the tsunami.
